February 21, 2015

Linux Software Superstore

Presentation by:

John Kennedy, Co-Leader
Linux Help Desk/SIG

East Central Ohio
Technology Users Club
Newark, Ohio

Linux Software Superstore

Aisle 1		Aisle 2
Internet		**Productivity**
Aisle 3		Aisle 4
Multimedia		**Graphics**
Aisle 5		Aisle 6
Desktop Tools		**Disk/File Tools**
Aisle 7		Aisle 8
Games		**Security**

What You'll See

- In my series of slides, I will share with you the different areas of computer tasks and some of the programs that are available to complete those tasks.
- In small print I will sometimes include the names for some of the Microsoft products that you might use.
- Then I will share with you some actual screen shots of the programs that I like to use with Linux to complete my routine computer tasks.

Aisle 1: Internet

- Browsers (*Internet Explorer*)
  - Firefox, Chromium (Chrome), Opera, Midori
- E-mail Clients (*Outlook Express*)
  - Thunderbird, Evolution, kMail
- Remote Access
  - Teamviewer
- Communications (VoIP) (chat)
  - Skype, Pidgin, Empathy, Ekiga
- File Transfer Protocol (FTP) Client
  - FilleZilla

VirtualBox Beginners

Before attempting to install VirtualBox:

Check your BIOS for virtualization capability and enable the function. As your machine boots you will see a message, usually at the bottom of the screen. DEL or F12 or ESC keys are frequently used to enter the BIOS setup. You will be able to read it easier if you press the **Pause/Break** key when you see the message. Our example tells us to use the **DEL** key for BIOS setup.
