What Are “Shared Experiences” on Windows 10?

by [Chris Hoffman](#) on April 19th, 2017

Microsoft’s “Shared Experiences” allow you to start a task on one device and finish it on another, or easily set up a remote control or other companion app on a smartphone.

RELATED: [What’s New in Windows 10’s Creators Update](#)

Shared Experiences between Windows 10 and Android devices, and is highlighted in the Settings app in [the Creators Update](#). It promises to be a pretty useful feature. Unfortunately, only a small handful of app developers have bothered to implement it yet.

Project Rome, Cross-Device Experiences, and Shared Experiences

This feature is now known as “Shared Experiences” in Windows 10’s Creators Update. However, this feature is codenamed “Project Rome” and was previously referred to as

DID YOU KNOW

Michigan’s 10-cent bottle deposit law is effective: 97 percent of the bottles and cans in the state are recycled (compared to 70 percent in states with lower container deposits in effect and an overall recycling rate of 33 percent for the United States as a whole).

DID YOU KNOW

Babies have more bones than adults; as they age, several bones (such as the plates in the skull) fuse together to become one single bone.

DAILY TECH TERM

Fuzzy Logic

Fuzzy logic is a form of logic processing that deals with values that aren't exactly true or false, but might have values that range in degrees between the two. For instance, temperatures might be considered hot, cold, very hot, or very cold, but the exact temperature numbers might vary depending on the scenario or the person involved.

CONTESTS

Contests

STAFF 13 Nov 2015

Here at Windows Central we hold contests for all kinds of amazing prizes, from apps to games to hardware. We're changing things up all the time, but if you want to get in on the latest contests and giveaways, you'll never have to look any further than right here. Some of our contests require some effort to enter (for BIG prizes!) while others just ask that you leave a comment. So if you don't want to miss out on any of the awesome products or services we have to give away — be sure to check this page often for all the goods!

Don't forget to check out the ongoing contests on our other sites too!

Description

The official app of windowscentral.com, your guide to everything your Windows devices can offer. Read comments, app & game reviews wherever you go. With live tile support, you can be up to date on the latest Windows news when pinned to your start screen. Not sure whether to spend your money on that latest game? Check out the review on Windows Central, check out screenshots or watch the video review, then go directly to the app to start the download. You can then jump straight back into Windows Central to keep on the latest news about the platform, including what's being announced for future updates. Windows Central is the only app you need to stay on top of everything Windows.

Windows Central App

Windows Central — The app! for Android

We don't necessarily like it, but we know that many of our loyal Windows Central readers have jumped from the Windows Phone ship to another, healthier platform, such as Android. As such, we not only offer apps for Windows phones, tablets and PCs, we have an Android app that also delivers the goods.

Download from [Google Play](#)

Windows Central 'WC Forums' for iOS

Apple's iOS platform is hugely popular. We want our iPhone- and iPad-toting readers to have access to all the Windows Central content they want (need?) from wherever they are. So we created an iOS app, too. (It's called "WC Forums" but the app serves up all of our blog content and other site goodness, too.)

Samsung Debuts New Galaxy Note 9, Galaxy Watch, Wireless Charger Duo, and Galaxy Home Smart Speaker

Thursday August 9, 2018 9:31 am PDT by Juli Clover

Samsung this morning debuted its latest flagship smartphone, the new Galaxy Note 9. The Galaxy Note 9 is equipped with a 6.4-inch 2960 by 1400 Super AMOLED screen, and like previous Note models, it works with the S Pen stylus. Design wise, it looks quite similar to the Note 8.

Inside, the Galaxy Note 9 features Qualcomm's Snapdragon 845 processor, 6 to 8GB RAM, dual AKG speakers, and a 4,000 mAh battery. Samsung is using the same 12-megapixel dual-aperture camera system it used in the Note 8, with the addition of an Intelligent Camera function that's able to detect what you're taking a photo of.

MacRumors Roundups

MacRumors Roundups are an overview summary of all the rumors and expectations about a particular product. With the fast paced nature of the Apple news cycle, it can be difficult for even the most dedicated reader to follow every new development.

The goal of each roundup is to simply answer the question of "What are you expecting" for any given product. That opinion is certain to change over time as new rumors are revealed, and the roundups will be updated regularly to reflect that.

Over time, we hope to ramp up to have more roundups on more topics.

Apple Deals

Our Apple Deals roundup is designed to be a one-stop destination for finding a great deal on Apple products like Macs, iPads, and iPhones, or accessories related to Apple products. In the first section of the roundup, you'll find deals on accessories that range from iPhone cases and cables to docks, bags, software, and more.

Our weekly deals section is updated regularly, with new deals added as we discover them. We'll be adding and removing deals as they expire,
