Libraries

City/county or university libraries, local libraries may have local online databases and/or indices (e.g.,marriages, obituaries, cemetery transcriptions). May have a genealogy room and/or staff or volunteer genealogy person; may have local family files. Best source for local newspapers on microfilm. Explore the possibility of obtaining a library card if online resources are worth accessing.

Things to Consider--during COVID

Because facilities may not be totally open, it is important to call ahead to verify hours and restrictions. In addition, websites are not always up to date, and open hours may not be correct. Here are just a few of thequestions you might want to ask. Are masks required? Are appointments required? Is there a time limit for research?
