The **Westchester PC Users Group** ([WPCUG](#)) is offering a \$10 one-year membership to members who belong to other APCUG groups (normally the same membership is \$50). WPCUG has a general meeting and several workshops each month. The affiliated membership includes attending the general meeting and workshops and access to WPCUG's award-winning monthly newsletter and Weekly Update eBulletins with workshop and technology information.

Please email [info@wpcug.org](mailto:info@wpcug.org) for further details.

WPCUG is focused on technology that increasingly surrounds us such as hardware and software from Android, Google, macOS, and Windows among others; PCs, Macs, tablets, mobile phones; smart home tech; internet security; photo editing; digital cameras; and equipment upgrade/repair. Members can get answers to basic questions from resident experts, attend drop-in workshops, and tap crowd wisdom to solve their tech problems. WPCUG also does charity work rebuilding donated computers that are then presented to educational, veterans, and non-profit groups.

The **Computer Club of Oklahoma City** is having hybrid meetings; all members of APCUG groups are invited to attend the Zoom meetings for a discounted membership fee of \$10 (the same membership fee is usually \$55/year). Affiliated members will receive the weekly eBulletin with meeting information, tech news, etc. You will also be eligible to attend their Thursday and Friday Study Groups (aka SIGs) and their general meeting on the 4<sup>th</sup> Thursday. For more information, please contact [membership@ccokc.org](mailto:membership@ccokc.org)

You will find meeting and Study Group information on ccOKC's [website](#) Click on Membership for the application.
